WHAT IT MEANS

- You stay in scope without a break.
- For FY2026, choose: pre-Omnibus ESRS, pre-Omnibus ESRS plus reliefs, or revised ESRS in full.
- From FY2027 the revised ESRS are mandatory.
- The value chain cap applies to what you can ask suppliers with up to 1,000 employees.

2 FY2026 route options

A

Keep it as it is

Pre-Omnibus ESRS

Report your 2026 year exactly like 2025.

EFFORT NOW ●○○

FITS IF

Your 2025 process works and you want to compare with last year.

B

Keep it, with shortcuts

Pre-Omnibus ESRS plus reliefs

Same standards as 2025, but you may use up to eight shortcuts from the new rules.

EFFORT NOW ●●○

FITS IF

Your assessment is heavy, your value chain data has gaps, or you have acquisitions, disposals or joint operations in 2026.

C

Switch early

Revised ESRS in full

Use the new, slimmer rules one year early. You get the fewest datapoints.

EFFORT NOW ●●●

FITS IF

You are starting with ESRS now, or you are redoing your assessment anyway and your systems and auditor are ready for the new structure.

3 Datapoints

From 385 to 166 mandatory datapoints, 57% fewer

Current ESRS (2023)	385
Revised ESRS	166
Of these, apply without conditions	86

PER TOPIC	2023	REVISED
ESRS 2 (always)	127	**57**
E1 Climate change	187	**84**
E2 Pollution	44	**17**
E3 Water	27	**8**

Plus 31 general datapoints that apply to everyone: your total is 197. Counts from EFRAG's 2026 Draft List.

4 Dates to plan around

26 Feb 2026	18 Mar 2026	3 Jul 2026	21 Sep 2026	10 Nov 2026	19 Mar 2027	FY2027
Omnibus I published	Omnibus I in force	Revised ESRS adopted	Published in the OJ	**Revised ESRS in force**	Transposition deadline	Revised ESRS mandatory
