GENERAL GUIDE

Who has to report, and from when

- More than 1,000 employees AND more than EUR 450M net turnover (group figures for a parent): from FY2027.
- Below either threshold: likely out, but customers and investors may still ask for data.
- Non-EU group: more than EUR 450M EU turnover two years in a row plus an EU entity above EUR 200M: from FY2028.
- Reported for FY2024? Check your national rules for FY2025 and FY2026.

2 FY2026 route options

A Keep it as it is

Pre-Omnibus ESRS

Report your 2026 year exactly like 2025.

EFFORT NOW ●○○

FITS IF

Your 2025 process works and you want to compare with last year.

B Keep it, with shortcuts

Pre-Omnibus ESRS plus reliefs

Same standards as 2025, but you may use up to eight shortcuts from the new rules.

EFFORT NOW ●●○

FITS IF

Your assessment is heavy, your value chain data has gaps, or you have acquisitions, disposals or joint operations in 2026.

C Switch early

Revised ESRS in full

Use the new, slimmer rules one year early. You get the fewest datapoints.

EFFORT NOW ●●●

FITS IF

You are starting with ESRS now, or you are redoing your assessment anyway and your systems and auditor are ready for the new structure.

3 Datapoints

General guidance, not based on your answers

From 57 up to 292 mandatory datapoints

ESRS 2 always applies. Each material topic adds its own datapoints, so your number depends on which topics your double materiality assessment confirms. Per topic (revised ESRS):

ESRS 2 (always)	57	S1 Own workforce	49
E1 Climate change	84	S2 Value chain workers	12
E2 Pollution	17	S3 Communities	12
E3 Water	8	S4 Consumers	9
E4 Biodiversity	9	G1 Business conduct	20
E5 Resource use	15		

Plus 31 general datapoints that apply to everyone: 88 to 323 in total. Counts from EFRAG's 2026 Draft List.

4 Dates to plan around

26 Feb 2026	18 Mar 2026	3 Jul 2026	21 Sep 2026	10 Nov 2026	19 Mar 2027	FY2027
